## Weekly Report — Starting 9th SEP 2019 — ICON Sweden

This is report for `swedencornet` (ICON Sweden | EOSIO) operations and activities only related to ICON ecosystem, including P-Rep related activities. This report is "not" related to other operations of `swedencornet` (ICON Sweden | EOSIO).

Weekly Report — Starting 9th SEP 2019

ICON Sweden

Greetings ICONists,

This week (starting 9th SEP 2019) almost all P-Reps, including us were dedicated for Phase-3 testnet. Phase-3 testnet is expected to be as close to live network as possible for Decentralization Simulation. There will also be Stress Tests. Originally Phase-3 testnet was planned 2 weeks ago, however the Phase-3 testnet was postponed to start on September 10th 06:00 UTC.

Ref: <https://medium.com/helloiconworld/rescheduling-announcement-p-rep-testnet-3rd-phase-7cc4363d169a>

## Phase-3 testnet with Node Specs (preparation)

ICON Sweden started Phase-3 testnet with following node specs:

- Bare Metal: Intel® Xeon® W-2145, RAM: 128 GB DDR4 ECC, SSD: 1 TB, NW: 1 GBit/s
- Additional Node/HW: Bare Metal: Inter 3.6 (Optimized: 5 GH), RAM: 64 GB DDR4, “2 x 1 TB NVMe SSD (software RAID 1)”, 1 GBit/s, ubuntu 18.04

## Phase-3 testnet results, stats

We are dedicated to the ICON network and we desire to maintain high productivity.

Phase-3 testnet has not been so stable so far. The focus was to find the issues to get it more stable and to be able to get meaningful statistics. The Node SW and NW as a whole is not stable and requires better planning.

The monitor (which is public accessible) is at:

<https://zicon.tracker.solidwallet.io/governance> [Note: The stats and results from monitor are not trust-able and may not represent actual issues].

The Telegram Monitor status is at: <https://web.telegram.org/#/im?p=@iconstatus> [Again this monitor may not be fully ready and may represent miss-leading data]

The Node SW too often gets stuck and requires re-start, and re-syncing. Our feeling is that it looks like Phase-1 testing (rather than Phase-3 testing)

The next week ICON Team may come up with better SW, better NW, and better planning.

## Collaboration/Telegram — ICONists Voting

We spent lot of hours in variety of telegram and social media channels.

## "ICON Sweden" will take an active part in the whole ICON ecosystem

We re-emphasized that [swedencornet](#) (ICON Sweden | EOSIO) will take an active part in the whole ICON ecosystem; including, but not limited to:

- P-Rep
- EEPs (Ecosystem Expansion Projects)
- DAP (DApp Booster Program)

- C-Reps

We are also part of ICON Europe initiative to ensure to play an active role in whole ecosystem.

 We give all European ICONists a voice!   
ICON EUROPE

## Mainnet Citizen Node

Our Mainnet Citizen Node worked fine throughout the week.

- ICON Mainnet Citizen Node: <http://prep.eossweden.eu/api/v1/status/peer>
- ICON Tracker — Governance: <https://tracker.icon.foundation/governance>

Successfully deployed Mainnet Citizen Node
