Weekly Report — Starting 2nd SEP 2019 — ICON Sweden

This is report for `swedencorner` (ICON Sweden | EOSIO) operations and activities only related to ICON ecosystem, including P-Rep related activities. This report is "not" related to other operations of `swedencorner` (ICON Sweden | EOSIO).

Weekly Report — Starting 2nd SEP 2019

ICON Sweden

Greetings ICONists,

Early this week (starting 2nd SEP 2019) almost all P-Reps, including us were planning and getting ready for Phase-3 testnet. Phase-3 testnet is expected to be as close to live network as possible for Decentralization Simulation. There will also be Stress Tests. However the Phase-3 testnet is postponed to start on September 10th 06:00 UTC.

Phase-3 testnet with node specs (preparation)

ICON Sweden is ready for Phase-3 testnet with following node specs:

- Bare Metal: Intel® Xeon® W-2145, RAM: 128 GB DDR4 ECC, SSD: 1 TB, NW: 1 GBit/s
- Additional Node/HW: Bare Metal: Inter 3.6 (Optimized: 5 GH), RAM: 64 GB DDR4, “2 x 1 TB NVMe SSD (software RAID 1)”, 1 GBit/s, ubuntu 18.04
- AWS c5.9xlarge (we want to test this as well; most likely AWS will be our backup node)

We are dedicated to the ICON network and we desire to maintain high productivity. The Decentralization Phase will focus on:

- P-Rep can experience the Main P-Rep role.
- The list of the top 22 Main P-Reps will change systematically on a daily basis.
- The Main P-Reps will start to produce and validate blocks, and the other Sub P-Reps will standby on a waitlist.
- The Main P-Reps can submit the Governance Variable and Network Proposal.

ICON Sweden joined ICON EUROPE — an initiative which will strengthen the ICON community

ICON Sweden also joined ICON EUROPE few weeks ago. ICON Europe is an initiative which will strengthen the ICON community as a whole but especially the European region. Collaboration/Telegram — ICONists Voting

We spent lot of hours in variety of telegram and social media channels.

Mainnet Citizen Node

This week many Mainnet Citizen Nodes were found to be off/stuck almost at the same time. Soon after noticing this ICON Sweden got back it's Citizen Node live.

- ICON Mainnet Citizen Node: <http://prep.eossweden.eu/api/v1/status/peer>
- ICON Tracker — Governance: <https://tracker.icon.foundation/governance>

Successfully deployed Mainnet Citizen Node

<https://tracker.icon.foundation/governance>

ICON Sweden

Continuously present on Testnet

We are also continuously up in yoonjeong testnet. We are still managing testnet Phase-2 server.
